## PUBLICATIONS

The three (3) main functions of a university lecturer are Teaching, Research and Community Service. Research is normally measured by the quality and quantity of peer reviewed

publications in reputable journals, publications of books and manuals, conferences, workshops and seminars attended and presentations made. Tables 7 and 8 show the publications and details of each category mentioned above I have contributed to knowledge.

## **HOBBIES**

- I loved to play football during my youthful days and I still love to watch the Premiership especially whenever Chelsea (The Blues) is in action.
- I play Table Tennis in my leisure times to avoid vigorous running.
- I always listen to music when doing academic work. Music relaxes my mind.
